SUNTECH CT40 PNI + SPO2 NELLCOR COMPATIBLE + WHEEL STAND WITH BASKET

Ref. DSU551422N

Evolutionary diagnostic station for the point measurement of vital parameters with The French Roller foot!

Description

Using SunTech blood pressure measurement technology, the CT40® is the only scalable diagnostic station of its kind. Designed to be easily used and adapted in all care settings, the modular design of this device allows you to add pulse oximetry and thermometry modules tailored to your patients' needs. Adult and pediatric mode-

Reliability:

Suntech technology: the world standard for measuring blood pressure in harsh conditions-

Accuracy: The customizable average blood pressure measurement mode ensures accurate and consistent measurements.

3 PNI measurement modes: automatic, auscultatory and average-

Connectivity: Data transfer using HL7 protocols with network connection via an integrated Ethernet port or, optionally, WIFI.

-Flexibility: Modular design allows for the addition of optional modules such as: temperature and SpO2 (plug & play modules)-Nellcor Technology

Simplicity: Intuitive user interface with LCD display; Built-in memory: 99 recordings--

Autonomy: 20h, or 200 cycles of blood pressure

Cuff sizes available: small child to large adult and reusable or single-patient one-piece bib shorts.
