CLEANING & DISINFECTION

Monobloc arm and lower limb cuffs can not be sterilized. They can be dry cleaned or cleaned upon immersion taking care to maintain the connector (on the tube) out of the water.

Autoclavable cuffs can go through autoclaving according to standard protocols.

DDM FRENCH QUALITY

CE mark

Tourniquet cuffs are Class I medical devices. They comply with current European regulations.

After-Sales Service

GSH provides tourniquet cuffs maintenance and repair services. Contact our After-Sales Service on: +33 4 42 90 31 31.

Warranty

Monobloc cuffs are guaranteed for 2 years, and autoclavable cuffs are guaranteed for 1 year (under normal conditions of use). The warranty does not cover faulty maintenance by the user.
